INFORMED CONSENT FOR A SURGICAL PROCEDURE

Please read carefully. Ask questions before you sign.

Patient Name	_____
Date of Birth	____ / ____ / _____
Procedure	Laparoscopic cholecystectomy (removal of the gallbladder)
Surgeon	Dr. Aisha Bello, MD, FACS
Scheduled Date	28 March 2026

1. Nature of the Procedure

Your surgeon has recommended removal of your gallbladder using a minimally invasive (keyhole) technique. Several small incisions are made in the abdomen and a camera and instruments are used to remove the gallbladder. In some cases the operation must be converted to an open procedure with a larger incision.

2. Risks and Possible Complications

No procedure is completely without risk. The known risks include, but are not limited to:

1. Bleeding that may require transfusion or further surgery.
2. Infection of the wound or inside the abdomen.
3. Injury to the bile duct, bowel, or nearby blood vessels.
4. Bile leakage requiring drainage or additional procedures.
5. Reaction to anaesthesia, including breathing or heart problems.
6. Blood clots in the legs or lungs.
7. Rarely, serious complications may result in permanent injury or death.

⚠ FINANCIAL RESPONSIBILITY

Charges not covered by your insurer are your responsibility. Out-of-network anaesthesia and pathology services may be billed separately. An itemised estimate is available on request.

3. Consent

By signing below I confirm that: **(a)** the procedure, its risks, benefits, and alternatives (including doing nothing) have been explained to me; **(b)** I have had the opportunity to ask questions and they were answered to my satisfaction; **(c)** I understand that no guarantee has been made about the outcome; and **(d)** I consent to additional or different procedures if they are found necessary during the operation to preserve my life or health.
